

Fort Worth Police Department and Nevada Highway Patrol Are the First Agencies to Purchase Axon's New TASER 7

October 9, 2018

Major city and state and provincial agencies make full deployments of TASER 7

SCOTTSDALE, Ariz., Oct. 9, 2018 /PRNewswire/ -- [Axon](#) (Nasdaq: AAXN), the global leader in connected law enforcement technologies, today announced Fort Worth Police Department (FWPD), a [Major Cities Chiefs Association](#) member, and Nevada Highway Patrol, a state and provincial agency, as the first agencies to equip officers with Axon's new TASER 7 weapon. FWPD placed orders for 1,193 TASER 7 devices and NHP placed orders for 889 TASER 7 devices. These orders were received in the third quarter of 2018 and will ship in the fourth quarter of 2018.

Axon announced its next-generation TASER 7 device at the International Association of Chiefs of Police conference in Orlando, Florida. The TASER 7 is the most effective TASER weapon yet, with services that are seamlessly integrated into Axon Evidence ([Evidence.com](#)). All TASER 7 units ship with battery docks that recharge the batteries and upload weapon usage data to Axon Evidence, similar to the "dock and walk" system that deploys with Axon body cameras.

"We appreciate that Axon listens to its customers to continually develop and improve their products," says Fort Worth Police Department's Chief Joel Fitzgerald. "Equipping our officers with this next generation TASER weapon is an important tool to help de-escalate situations that could otherwise end in tragedy."

"Axon has always been a forward-looking company, so we are thrilled to be one of the first agencies to deploy the new TASER 7," says Nevada Highway Patrol's Colonel John A. O'Rourke. "Our officers are faced with life and death situations on a daily basis. The TASER 7 offers them a greater success of achieving a positive outcome in each situation without the loss of life."

To learn more about the new TASER 7 visit: www.axon.com/taser-7.

About Axon

Axon is a network of devices, apps and people that helps law enforcement become smarter and safer. Our mission is to protect life. Our technologies give law enforcement the confidence, focus, and time they need to keep their communities safe. Our products impact every aspect of an officer's day-to-day experience:

We work hard for those who put themselves in harm's way for all of us. To date, there are more than 300,000 software seats booked on the Axon network around the world and more than [206,000](#) lives and countless dollars have been saved with the Axon network of devices, apps, and people.
