

Houston Police Department Upgrades 2,188 TASER X2 Smart Weapons

SCOTTSDALE, AZ -- (Marketwired) -- 09/16/13 -- TASER (NASDAQ: TASR) today announced multiple deployments of its TASER® brand next generation Smart Weapons including a significant upgrade of 2,188 units by the Houston Police Department.

"The Houston Police Department has had a long standing relationship with TASER," stated Chief Charles A. McClelland, Jr. of the Houston Police Department. "In last decade, TASER products have proven to be effective and high-quality. We believe the TASER X2 Smart Weapon will be another quality product for us during the next five years and a great tool for reducing suspect and officer injuries in the field."

"We are grateful for the opportunity to continue to serve the Houston Police Department," said Rick Smith, CEO & founder of TASER International. "Houston has long been a technology leader in law enforcement, and has been the largest municipal deployment of TASER technology over the past decade. Houston is now leading the way in upgrading to new TASER Smart Weapons to further enhance the effectiveness and safety of their officers."

The Houston Police Department purchase follows a Houston City Council approval of a purchasing contract between the city and TASER International for up to \$9.5 million over five years on September 4. An initial allocation of \$2,800,953.50 was also approved. The probability, amount, or dates of future purchases are unknown.

This purchase upgrades approximately half of the Houston Police Department's TASER weapons. In total, there are more than 300,000 TASER weapons in the field that are beyond the expected useful life of five years that would benefit from upgrading to TASER's new Smart Weapon technology.

Significant new TASER Smart Weapon deployments:

- Houston Police Department (TX): 2,188 TASER X2 Smart Weapons
- Chesterfield County Police Department (VA): 80 X2s
