

Houston Police Department Completes Largest Upgrade to TASER X2 Smart Weapon

SCOTTSDALE, AZ -- (Marketwired) -- 08/06/14 -- TASER (NASDAQ: TASR) today announced multiple orders of its TASER® brand next generation Smart Weapons. These orders were received in and are expected to ship in the third quarter of 2014.

"This is an extraordinary day for TASER as the Houston Police Department's follow on order of 2,663 TASER X2 Smart Weapons now provides the entire patrol force with a total of 5,400 TASER X2s," said Rick Smith, CEO of TASER. "Houston has long been a technology leader in law enforcement, and has been the largest municipal deployment of TASER technology over the past decade. Houston continues to lead the way in further enhancing the effectiveness and safety of their officers by upgrading to new TASER Smart Weapons."

"In addition, it's noteworthy that the Winnipeg Police Service placed the first order of Smart Weapons for Canada. We anticipate that this is the start of a widespread upgrade cycle for the aging fleet of TASER devices currently fielded across Canada," concluded Smith.

"The Houston Police Department has had a long standing relationship with TASER," stated Chief Charles A. McClelland, Jr. of the Houston Police Department. "In the last decade, TASER products have proven to be effective and high quality, and have greatly assisted our agency in reducing workers' compensation claims as our officer injuries have decreased since deploying TASER devices. With its upgraded technologies and new safety enhancements, we expect the TASER X2 will be another quality product for us during the next five years and a great tool for reducing suspect and officer injuries in the field," concluded McClelland.
