

## Northern Territory Police Deploys 820 Axon Body Cameras on Evidence.com in Australia

DARWIN, Australia and SCOTTSDALE, Ariz., Sept. 27, 2016 /PRNewswire/ -- Axon Public Safety Australia, a subsidiary of TASER International (NASDAQ: TASR) and the global leader in digital evidence management solutions with the leading body-worn camera, today announced the purchase of 720 Axon Body 2 cameras and 100 Axon Flex cameras by the Northern Territory Police in Australia. The police service secured a three-year subscription to the Axon cloud solution, Evidence.com, to help store, manage and share data from the body cameras and other digital evidence sources. The order was received in the second quarter of 2016 and will be shipped through the first quarter of 2017.

"We are excited to see the growing International momentum for the Axon platform," said Rick Smith, CEO of TASER International. "We are proud to build upon our foundational relationships with TASER customers across Australia to provide the advanced capabilities of Axon."

To date, more than 100,000 licenses have been booked on the Axon network worldwide. The Axon network seamlessly integrates devices and apps to enable powerful capabilities for building safer communities. The Axon network includes:

- **Smart Devices** – Body cameras and in-car video that leverage technology such as Bluetooth® wireless technology and Wi-Fi® to better track and manage data
- **Mobile Apps** - Evidence management for iOS and Android devices with Axon View and Axon Capture
- **Unified and Integrated Digital Evidence Management System (DEMS)**– One platform that removes siloed DEMS through cloud computing, integrations across media points, and open file standards that do not require proprietary file formats or media players
- **Connected Ecosystem** – From capture to courtroom, securely share and track digital evidence across public safety stakeholders
- **Digital Verification and Audit Logs**– Record every interaction with any piece of digital evidence including capture, ingest, retrieve, manage, and share
- **Advanced Security** – Industry-leading people, practices, and products that comply with CJIS at both the infrastructure and application layers and ISO/IEC 27001
