

United States Forest Service is First Federal Law Enforcement Agency to Fully Adopt the Axon Ecosystem with TASER Weapons, Body Cameras and Axon Evidence

USFS now deploying body cameras and TASER weapons on the first ever FedRamp-authorized digital evidence management system, Axon Evidence

SCOTTSDALE, Ariz., Sept. 30, 2019 /PRNewswire/ -- [Axon](#) (Nasdaq: AAXN), the global leader in connected law enforcement technologies, today announced that the United States Forest Service (USFS) will outfit officers and agents across its law enforcement and investigative agency with Axon Body 2 cameras backed by the digital evidence management system, Axon Evidence ([Evidence.com](#)). The USFS has been a TASER Conducted Energy Weapon customer since 2008 and began an agency-wide deployment of TASER X26Ps in 2018. USFS Law Enforcement and Investigations is the first federal law enforcement agency to adopt Axon's full less-lethal ecosystem. This order was received in the third quarter of 2019 and will deploy in multiple phases.

In addition to the Axon Body 2 cameras, the USFS also ordered Axon Signal Performance Power Magazine (SPPM), a CEW battery that alerts cameras on the Axon network to begin recording when the safety is in the "armed" position. The SPPM will be incorporated into all TASER X26P CEWs deployed across the agency.

"We are thrilled to partner with the Forest Service, the first federal agency to deploy Axon's ecosystem of life saving technologies across their law enforcement enterprise," says Richard Coleman, Axon's VP and GM, Federal. "The Forest Service's mission to sustain the health, diversity, and productivity of the 193 million acres of our nation's forests and grasslands is uniquely critical and important and it's a mission we at Axon are proud to support."

USFS adoption of the Axon network represents an important milestone in Axon's entry into the federal civilian law enforcement market, which has more than 120,000 officers who are authorized to make arrests and carry firearms, according to the [US Justice Dept](#).

About Axon

Axon is a global network of devices, apps, training and people that helps law enforcement and public safety personnel become smarter and safer. With a mission of protecting life, our technologies give customers the confidence, focus and time they need to protect their communities. Our products impact every aspect of a public safety officer's day-to-day experience.

We work hard for those who put themselves in harm's way for all of us. To date, there are more than 397,800 software seats booked on the Axon network around the world and more than [220,000](#) lives have been saved with the Axon network of devices, apps, training and people.
